Support for 4070th by USAFE

25X1A6a I have followed through on the subject covered in your memo, attached, which dealt with having the Chief of Staff USAF forward a letter to the Commander, USAFE, requesting that full support be given the 4070th [REDACTED] in their logistical support of Detachment A. Col. Berg informed me that Gen. Twining had personally sent a letter to Commander, USAFE, asking that he give full support to our project. I have also the understanding from Col. Berg that General Tunner, General Walsh, and other related commands have been either briefed or been given appropriate directives in fulfillment of Gen. Twining's request.

25X1A6a I believe we should take no further action in this matter inasmuch as the "how" of carrying out this request is strictly a responsibility of the Commander in Chief, USAFE. I personally feel that adequate impetus has been given and we will have full support at [REDACTED]

J.A.G.
